CDC
Centers for Dialysis Care
Quality care...and so much more.
**About Dennis Kennedy**
Dennis Kennedy started his career as a kidney dialysis technician at MetroHealth Medical Center and the Cleveland Clinic Foundation. In 1993, he joined the Centers for Dialysis Care (CDC) where he attained the position of Director of Technical Services. His love for golf resulted in the beginning of a golf outing for CDC employees. Dennis dreamed of golfing at Pebble Beach, but his dream was precluded by his sudden death in 1996. His co-workers decided not only to memorialize Dennis by continuing the golf outing, but to turn it into a fundraiser for his second love, kidney patients.

**History of the Kidney Foundation of Ohio**
The Foundation was founded in 1950 by a group of physicians and parents who children suffered from childhood nephrosis, and has grown dramatically since its inception. Over the past seventy years, the scope of service and geographic focus have expanded to serve 32 counties in northern and eastern Ohio, five counties in northern West Virginia, and chapter affiliates in Lake and Summit counties.

The Kidney Foundation of Ohio is a nonprofit organization based out of Cleveland, and has become the premier agency in Ohio for providing direct assistance and education to individuals suffering from kidney failure. The Foundation remains the only health and human service agency in Northeast Ohio to provide direct dollars to patients.

**Who We Help**
The Kidney Foundation of Ohio is dedicated to providing a broad-based program of direct assistance to persons with kidney disease and promoting and providing educational programs for the general public, renal professionals, and patients and their families. The vision of the Foundation is that as a result of the services provided, individuals affected by kidney disease will have a measurably improved quality of life.

*The following programs address the financial needs of people suffering with kidney disease and help them improve compliance. Programs are free of charge to kidney patients within the Foundation’s service area:*

- Medication, Transportation and Emergency Grants
- Emergency Insulin
- Information & Referral Guidance
- Medical Identification Bands
- Professional, Youth, and Community Education
